

# Who is the Michigan Caring Majority?

The Michigan Caring Majority is a statewide campaign and movement organizing to lift up care workers and win a new social insurance program around Long Term Services and Supports so that all Michiganders can live and age with dignity. Since 2017:

- We've organized families, care givers, nonprofits and policy makers around issues of care in Michigan
- We've won major legislation that established a feasibility study to look at possible solutions
- We've raised over \$400,000 to get the study going in 2019
- We won a \$16.5 million increase in funding for MI Choice in 2019

By 2021 we intend to have new policies written around the outcome of the study to win a new social insurance program for all Michiganders to live and age with dignity.
